## AUTHOR INSTRUCTIONS AND SUBMISSION PROCEDURE

The full text of the papers must be prepared using WinWord (within even number of pages) and cannot exceed 6 pages, including figures and tables.

Guidelines for formatting the papers are according to requirements for publishing in the «Journal of the Technical University branch Plovdiv, Bulgaria».

In order to easily format the paper in accordance with the requirements of the Board of Editors, please strictly follow the templates provided. Upon opening the selected templates, please, mark the sample title and write the title of your article instead. By doing this you will be able to keep the necessary font and size in accordance with the requirements for publication of articles in the Journal. Use the same procedure for the names of the authors, e-mails, university/organization and the body of the article. A template and detailed instructions for authors are available at the conference website: <http://techsys.tu-plovdiv.bg>

Papers that fail to meet the requirements or the final deadline shall not be submitted for review.

Reports from the conference will be issued on CD media, and those meeting the requirements of the "Journal of the Technical University Sofia, Plovdiv Branch, Fundamental Sciences and Applications", will be published in this journal.

The conference fee should be paid by direct bank transfer to the bank account of the Technical University Sofia, (with text "for TechSys '16 and the name of the author"):
