Students' obligations relating to occupational safety and health

SSM 1. Each STUDENT must carry out his/her work, following his/her training and instruction, as well as with the instructions received from the teaching staff, in such a way that he/she does not expose to danger of injury or occupational illness either his/her person or others who may be affected by his/her actions or omissions during his/her participation in the teaching process.

SSM 2. Particularly, the STUDENT has the following obligations:

a) to make correct use of the machinery, equipment, tools, dangerous substances, transport equipment and other means of production provided by the institution;
b) to properly operate all electrical installations and devices;
c) to make correct use of the personal protective equipment provided and, after use, return it or place it in its intended place of storage;
d) not to disable, modify, change or remove their own safety devices, in particular machinery, apparatus, tools, technical installations and buildings, arbitrarily and to use these devices correctly;
e) to immediately inform the instructor of any work situation which they have good reason to consider a danger to their health and safety, and of any deficiency in their protective systems;
f) to report to the teacher any accidents to themselves which occur in the course of their work;
g) to understand and comply with the provisions of occupational health and safety legislation and the measures for their application.

The undersigned ..... declare that I have been notified of the obligations relating to health and safety at work by the Technical University of Cluj-Napoca, having read and understood the aspects listed.
